CeoTronics wins tender to supply accessories for digital radios of the State of Berlin with a volume worth at least €0.55 million up to €3.85 million

CeoTronics AG Audio Video Data Communication (ISIN: DE0005407407), Adam-Opel-Strasse 6, 63322 Rödermark, Germany has been awarded an order by the German State of Berlin to supply the government authorities, security and law enforcement agencies with communication accessories for the new digital TETRA radios.

According to the tender of the State of Berlin a minimum purchasing quantity worth approx. €550 thousand is guaranteed. The maximum volume of the lots that can be drawn sums up to approx. €3.85 million.

Communication systems for Police, fire brigades and rescue services should be delivered within 24 months but the tender allows extending this deadline by all together up to 18 months in case that not all maximum quantities have been called up in time.

Issuer's information and explanatory remarks on this ad hoc disclosure:

The products offered and supplied as samples by CeoTronics comprise communication systems for fire brigades helmets and police riot helmets, hand microphones with ear microphones, semi and fully covert communication sets as well as communication systems to be built inside Police motorbike helmets. Various systems have also been inquired in ATEX, that means for the use in hazardous areas.

CeoTronics has already produced and delivered more than 45,000 communication systems for connection to the new digital TETRA / TETRAPOL radios. This is experience potential from that also the German authorities can profit from. In countries such as e.g. Belgium, Croatia, the Czech Republic, France, Hungary, Luxembourg, Mexico, the Netherlands, Finland, Norway, Sweden, Austria, Spain and Switzerland state authorities as Police, fire brigades and rescue services already trust in radio accessories "made by CeoTronics". In Germany the German Army (Bundeswehr) and many companies of the industry already successfully use CeoTronics systems for their digital radios.

„We are happy about the appreciation of our achievements and products. Again we could prove that our product portfolio can also stand against international competition and that the “so called expensive” production place Germany must not be a disadvantage. Also in the future CeoTronics will participate and take advantage of the German transition to digital radios. This is owed to the high quality of our products, the customer consulting expertise of our sales force and our innovative technologies”, said Thomas H. Günther, Chairman of the Board of Management.
